

Nassau County Florida Amateur Radio Emergency Services Net Control Operator Assignments

Our net is always held on a Wednesday night. On the first Wednesday of the month we have a meeting instead so there is never a net. Unless otherwise indicated, all nets will be held at 8:30 PM on the 146.835- W4NAS repeater system (open tone). The net control script is available on our website at <http://nassau-ares.org/> Check the top area of the links page.

If you know a head of time that you cannot fulfill your scheduled duties as either a primary or back-up net control operator please try to find a replacement. The roster will be made available to you so you can contact other members. Back-up net controllers should only be necessary if the primary net controller has a problem at the last minute and can't find a replacement. Back-up net controllers should initiate the net at 8:35PM if the primary net controller has not started the net.

Date	Primary Net Control	Back-Up Net Control	Notes
March 7, 2012	No Net		
March 14, 2012	Tony Musselman W9AFM, 904-910-0515	Dwayne Morris KQ4XF, 904-860-5494	
March 21, 2012	Fred Sanders WK1F, 904-334-3409	Brian Kopp KC5LPA, 904-206-3453	
March 28, 2012	Dwayne Morris KQ4XF, 904-860-5494	Brian Kopp KC5LPA, 904-206-3453
